Home Assignment- Test Case Generator

With vibe coding implement the below

1)Connect to Jira via Api

2)Fetch the user story from Jira to generate testcases

Vibe Coding Prompt Message:

Analyse my existing code base and Implement Jira integration
GO STEP BY STEP up on my approval proceed with next step
--[Mandatory] Backend first then proceed with Frontend

Instruction
[MANDATORY] Implement Jira connectivity email, api key should be configurable
[CRITICAL] Fetch the Projects from Jira (Projects should be auto populated as dropdown)
[CRITICAL] Fetch User stories for the project (user stories should be auto populated as dropdown)

CHAT

JIRA INTEGRATION IMPLEMENTATION PLAN

- Ready to generate test cases

✅ **VERIFICATION:**

- ✅ Backend TypeScript compilation successful
- ✅ Frontend TypeScript compilation successful
- ✅ All JIRA endpoints ready
- ✅ All components integrated
- ✅ Error handling implemented
- ✅ Loading states implemented

🚀 **READY FOR TESTING**

Your JIRA integration is **production-ready!**

Next Steps:

1. Start backend: `npm run dev` (in backend folder)
2. Start frontend: `npm run dev` (in frontend folder)
3. Navigate to JIRA Config section
4. Enter your JIRA credentials
5. Validate connection
6. Select project & user story
7. Generate test cases

Todos (4/4)

tsconfig.json

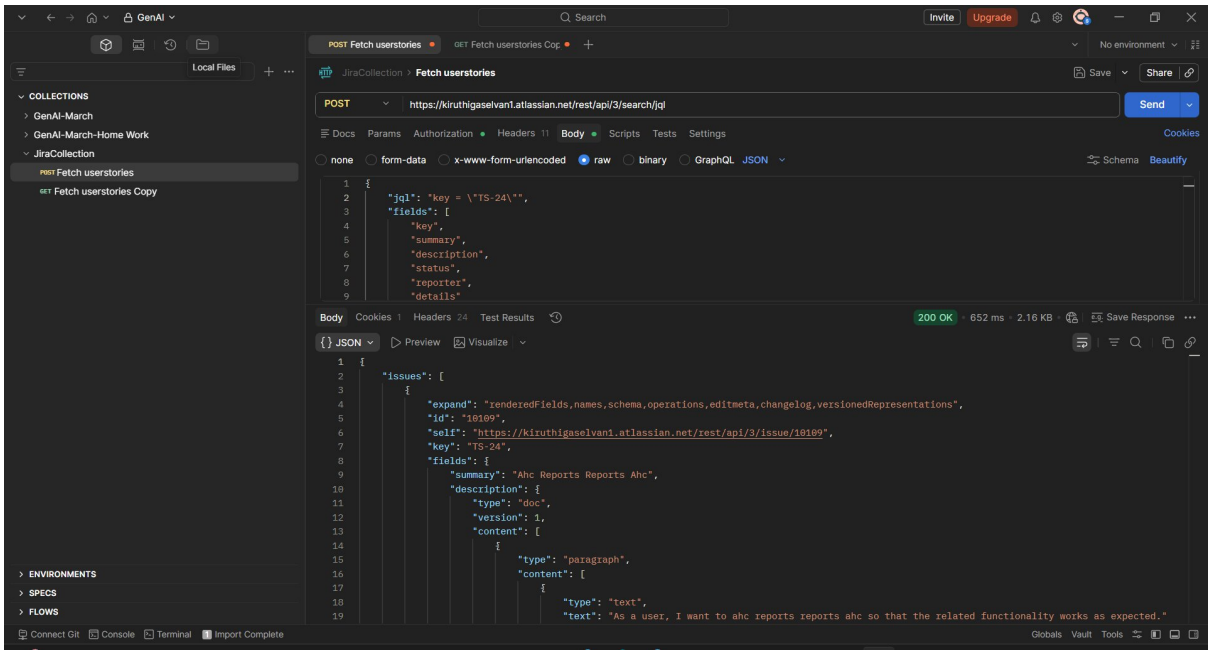
Describe what to build

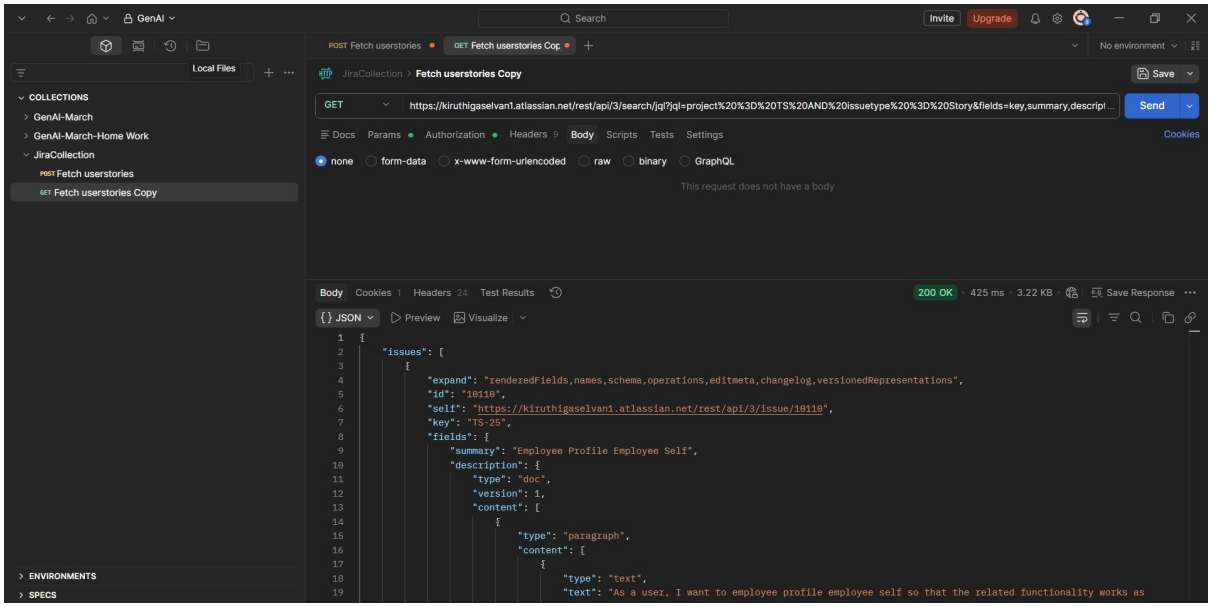
Agent Claude Haiku 4.5

Local Default Approvals

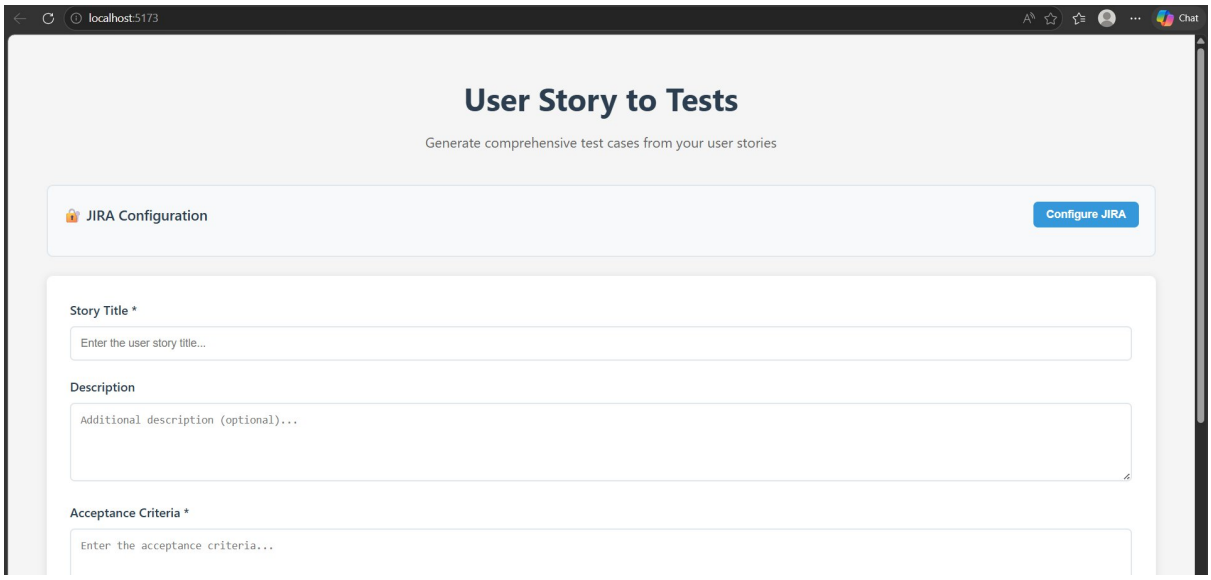
Postman:

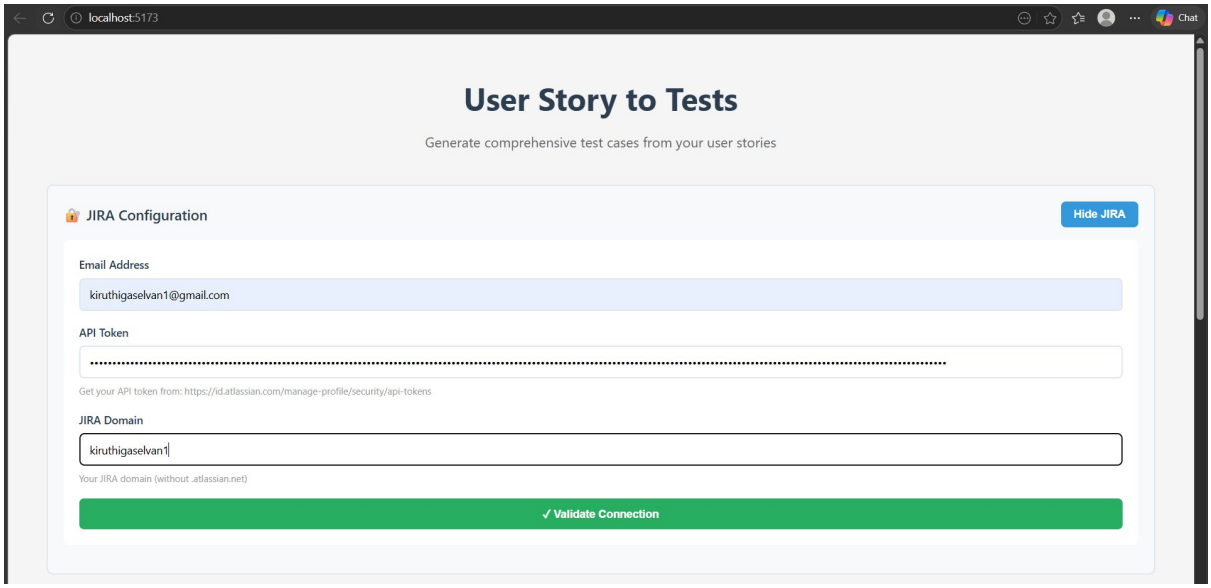
Updated with my Email id and Jira API Key as Pwd

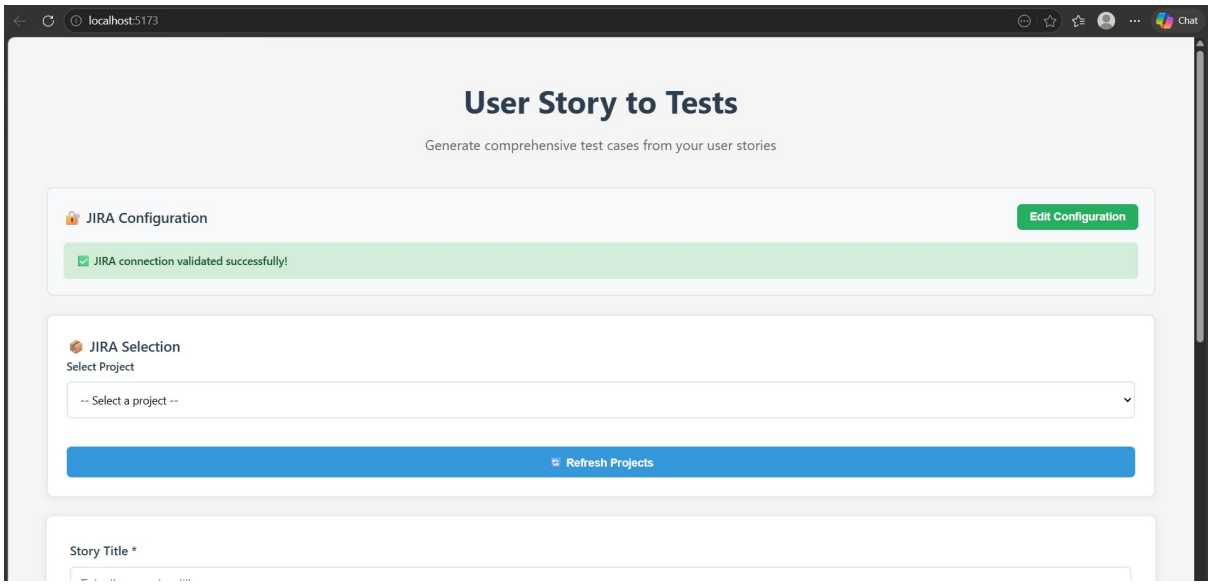




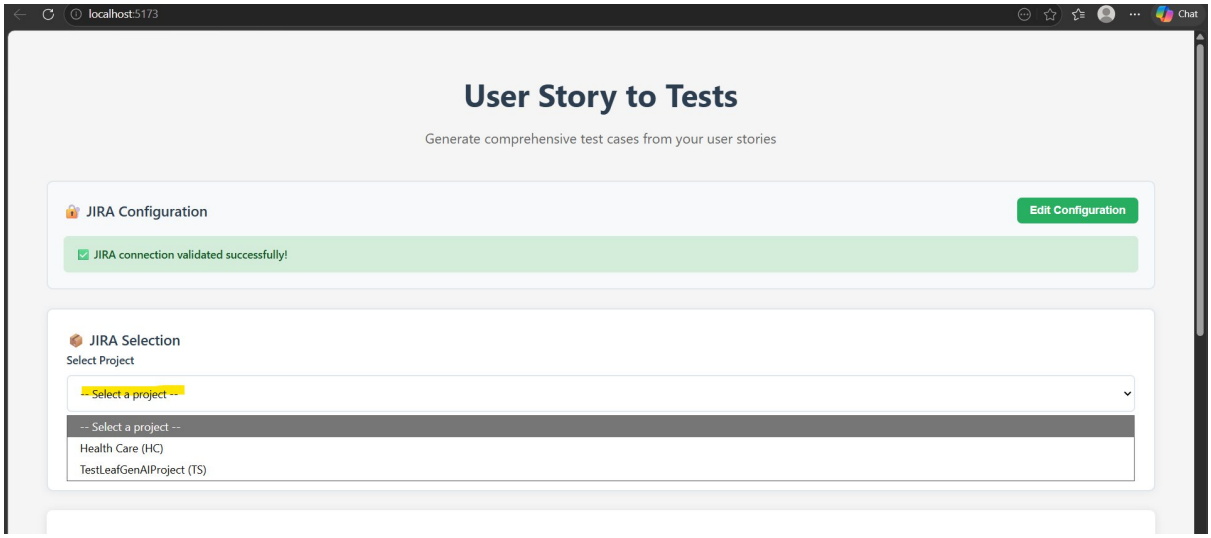
JIRA Configuration in UI:



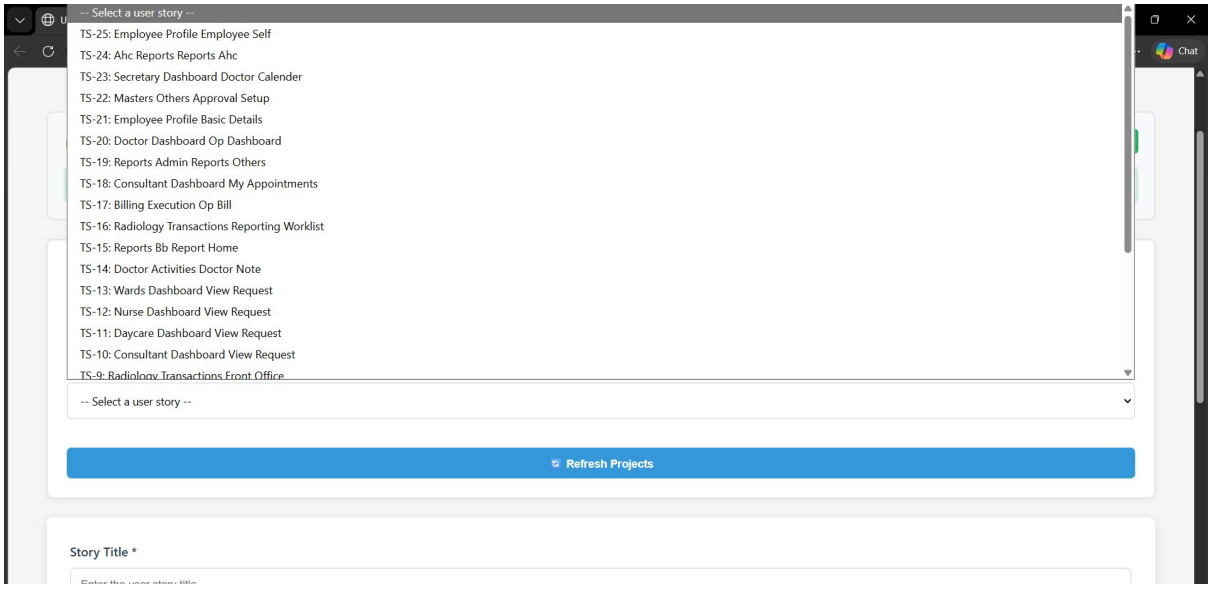




Multiple Project selection:



User Story list:



Story details fetched from JIRA and Auto-Filled in UI:

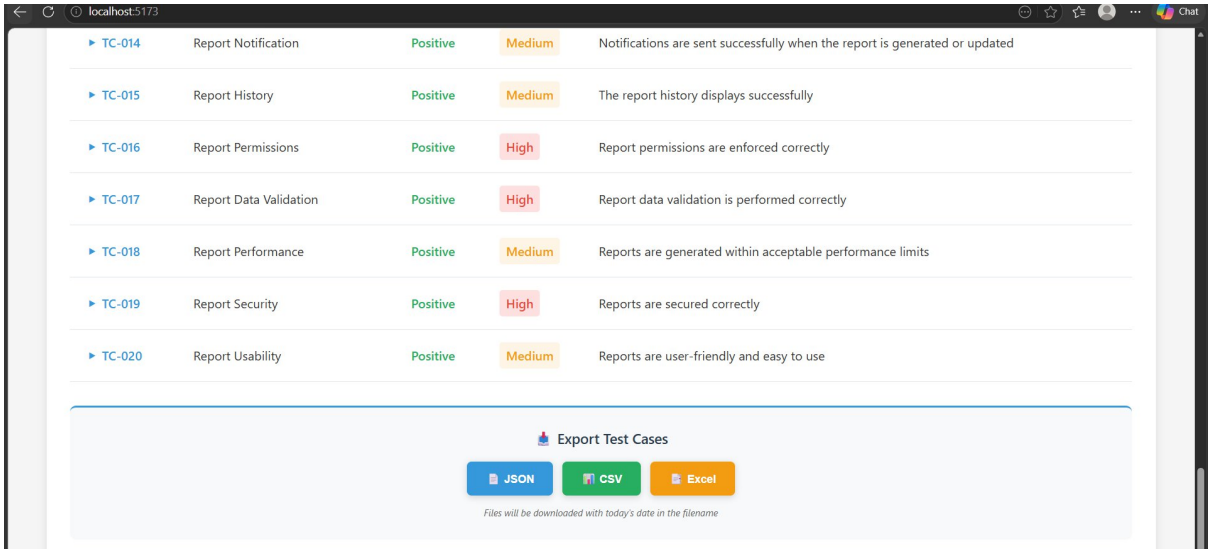
Generated Test Cases

20 test case(s) generated • Model: meta-llama/llama-4-scout-17b-16e-instruct • Tokens: 2787

Test Case ID	Title	Category	Priority	Expected Result
TC-001	View Existing Report	Positive	High	The report displays accurate and up-to-date information
TC-002	Generate New Report	Positive	High	The report is generated successfully and displays accurate information
TC-003	View Report with No Data	Positive	Medium	The report displays a message indicating no data is available
TC-004	Invalid Report Type	Negative	Medium	The system displays an error message indicating invalid report type
TC-005	Report Generation Failure	Negative	Medium	The system displays an error message indicating report generation failure
TC-006	Report Parameter Validation	Negative	High	The system displays an error message indicating invalid parameters
TC-007	Report Access Denied	Negative	Medium	The system displays an error message indicating access denied
TC-008	Report Data Update	Positive	High	The report displays updated information



TC-014	Report Notification	Positive	Medium	Notifications are sent successfully when the report is generated or updated
TC-015	Report History	Positive	Medium	The report history displays successfully
TC-016	Report Permissions	Positive	High	Report permissions are enforced correctly
TC-017	Report Data Validation	Positive	High	Report data validation is performed correctly
TC-018	Report Performance	Positive	Medium	Reports are generated within acceptable performance limits
TC-019	Report Security	Positive	High	Reports are secured correctly
TC-020	Report Usability	Positive	Medium	Reports are user-friendly and easy to use

Export Test Cases

JSON CSV Excel

Files will be downloaded with today's date in the filename

Excel Export:

reports_bb_report_home_testcases_2026-04-16

POSSIBLE DATA LOSS Some features might be lost if you save this workbook in the comma-delimited (.csv) format. To preserve these features, save it in an Excel file format.

D12: The report displays sorted information

Test Case ID	Title	Category	Expected Result	Steps
TC-001	View Existing Report	Positive	The report displays accurate and up-to-date information	Navigate to Reports Bb Report Home | Select an existing report | View the report details
TC-002	Generate New Report	Positive	The report is generated successfully and displays accurate information	Navigate to Reports Bb Report Home | Click on Generate New Report | Select report type and parameters | Generate the report
TC-003	View Report with No Data	Positive	The report displays a message indicating no data is available	Navigate to Reports Bb Report Home | Select a report with no data | View the report details
TC-004	Invalid Report Type	Negative	The system displays an error message indicating invalid report type	Navigate to Reports Bb Report Home | Enter an invalid report type | Attempt to generate the report
TC-005	Report Generation Failure	Negative	The system displays an error message indicating report generation failure	Navigate to Reports Bb Report Home | Click on Generate New Report | Select report type and parameters | Simulate report genera
TC-006	Report Parameter Validation	Negative	The system displays an error message indicating invalid parameters	Navigate to Reports Bb Report Home | Click on Generate New Report | Enter invalid report parameters | Attempt to generate the re
TC-007	Report Access Denied	Negative	The system displays an error message indicating access denied	Navigate to Reports Bb Report Home | Attempt to access a report without permissions
TC-008	Report Data Update	Positive	The report displays updated information	Navigate to Reports Bb Report Home | Select an existing report | Update the report data | View the report details
TC-009	Multiple Report Generation	Positive	All reports are generated successfully and display accurate information	Navigate to Reports Bb Report Home | Click on Generate New Report | Select report type and parameters | Generate multiple repo
TC-010	Report Filtering	Positive	The report displays filtered information	Navigate to Reports Bb Report Home | Select a report | Apply filters to the report data | View the report details
TC-011	Report Sorting	Positive	The report displays sorted information	Navigate to Reports Bb Report Home | Select a report | Sort the report data | View the report details
TC-012	Report Export	Positive	The report is exported successfully	Navigate to Reports Bb Report Home | Select a report | Export the report to a file
TC-013	Report Scheduling	Positive	The report is scheduled successfully and runs at the specified time	Navigate to Reports Bb Report Home | Select a report | Schedule the report to run at a later time
TC-014	Report Notification	Positive	Notifications are sent successfully when the report is generated or updated	Navigate to Reports Bb Report Home | Select a report | Configure notifications for the report
TC-015	Report History	Positive	The report history displays successfully	Navigate to Reports Bb Report Home | View the report history
TC-016	Report Permissions	Positive	Report permissions are enforced correctly	Navigate to Reports Bb Report Home | Verify report permissions for different users
TC-017	Report Data Validation	Positive	Report data validation is performed correctly	Navigate to Reports Bb Report Home | Verify report data validation for different report types
TC-018	Report Performance	Positive	Reports are generated within acceptable performance limits	Navigate to Reports Bb Report Home | Verify report performance for large datasets
TC-019	Report Security	Positive	Reports are secured correctly	Navigate to Reports Bb Report Home | Verify report security features
TC-020	Report Usability	Positive	Reports are user-friendly and easy to use	Navigate to Reports Bb Report Home | Verify report usability features
